

Artificially Intelligent Marketing for Human Inspired Growth Hacking

Success Frameworks

Finding Deals

What can you do?

- Investors often struggle to find suitable properties to invest in.
- Use AI to improve property research and lead generation
- Identify the best opportunities efficiently

Seller Engagement

What can you do?

- Assessing seller interest can be time-consuming.
- Use AI to streamline initial contact with sellers
- Automate the process of gauging willingness or desire to sell.

Market Analysis

What can you do?

- Accurate market analysis is essential for making informed decisions.
- Task AI to provide data-driven insights and predictions
- Reduce the risk of chasing or acquiring non-deals. ○

Offer Creation

What can you do?

- Crafting compelling offers and calculating the right numbers can be challenging
- Utilize AI to create multiple offer scenarios
- And personalized marketing materials.

Negotiation

What can you do?

- Negotiating deals effectively requires skill and strategy.
- Harness AI-powered assistance to get insights and tactics for getting your offers accepted.

Smart Scaling

What can you do?

- After closing a deal, managing marketing, performance tracking, and deal evaluation can be so overwhelming that it does not even get done. Let AI help you start applying post-close best practices to do more deals with higher profit potential.
