Still Cheap!

**The People and Things You Need to Know  
to Create Financial Independence in Real Estate NOW...**

Why is OREIA's National Real Estate Investing Summit the biggest gathering of individual real estate entrepreneurs in the country, year after year?

Because we're real estate entrepreneurs, too, and we see what you see: continuing low inventory, high prices, stubbornly high interest rates, and too many "deals" that just don't make sense.

That's why we each year, we focus our over 3 dozen unique workshops on what your colleagues who ARE making lots of money are doing right now. And right now, that's:

- Finding off-market deals.***
- Getting creative financing.***

***Using alternative exit strategies to make deals cash flow.***

***Even exploring alternative assets, like commercial properties, land, and mobile homes.***

**...But Really, You Need to Be Here  
for the PEOPLE.**

Over 900 new and experienced real estate entrepreneurs will converge on Cincinnati on October 31st-November 3rd, and the community is incredible.

Deals are done here. Partners are found here. Life-long friends and allies are made here. The best place to build your nationwide network is right here, at the Summit.

**Make a (cheap) investment in the future of your real estate investing business
